- Java
- Oparating Systems
- Python

## Soft Skills

- Time Management
- Team Player
- Communication
- Adaptability

## Interests

- Cloud Computing
- Cyber Security

---

**CAPACITI**

As a recent graduate with a diploma in Information Technology, with 1 year 6 months work experience. Throughout my studies, I developed a strong foundation in programming, network security, cloud computing, and software development. My passion for technology drives me to continuously learn and adapt to new tools .I have experience with various programming languages (Python, Java, SQL) and frameworks. I am particularly interested in Cybersecurity, Cloud computing, and Network engineering. I'm actively seeking opportunities to contribute to dynamic teams and projects where I can bring my problem-solving skills and eagerness to grow in the IT field.
